www.blueshield.pe

www.escudoazul.com

1.7 – Email the Blue Shield email should forward to:

blueshieldperu@gmail.com

2. Income:

Income 2020: \$ 488.88 (american dollars)

Our income comes from donations from the board members until we can finish the legal process dictated by peruvian law.

3. Report of Activities: Achievements & Performance

The BS Perú main focus was to establish a network to work with different institutions, to be known. Also our main goal was to finish all the long legal process and to comply with every legal aspect of peruvian law.

In this line of work, in the HC of Arequipa there had been work to identify the monuments with the Blue Shield as part of a public activity with the Municipality of Arequipa.

3.1 - Law, policy development and implementation:

- a) Process of legal registration of the committee as an association according to Peruvian regulations, which will allow donations, volunteers and other activities.
- b) The BS-Peru was part of the process of the development of the the la that declares of national interest the recovery of the historic centre of Lima, approved by the Peruvian Congress and waiting to be publish by the executive branch of Perú (https://leyes.congreso.gob.pe/Documentos/2016_2021/Dictámenes/Proyectos_de_Ley/04108DC05MAY20201127.pdf).
- c) Web page implementation (www.blueshield.pe)
- d) Creation of the the South Branch of the BS-Perú, with the centre in Arequipa

3.2 - Education, training, and capacity building:

- a) Training with volunteers in the Historic Center of Lima and Arequipa.
- b) Activities with school children, future heritage protectors in the city of Arequipa.

3.3 - Proactive protection and risk preparedness:

- a) The placement of the Blue Shield in the Fernandini house located in the Historic Center of Lima.

3.4 - Emergency response in disaster, domestic emergencies, and armed conflict:

- a) In the month of November Peru suffered a great political-social conflict. We work with various groups of civil volunteers for the protection of sculptures, public ornaments and cultural heritage.

3.5 - Stabilisation, post-disaster recovery, and long-term/ongoing support:

Support of the Shoring program for cultural heritage in high risk implemented by the Metropolitan Municipality of Lima.

3.6 - Co-ordination (of Blue Shield and with other relevant organisations):

- a) Emails were sent to 64 municipalities presenting ourselves as the National Committee of the Blue Shield

4. Main issues faced:

The legal process was stalled by the Covid Pandemic, and when resumed everything went really slow, scouting for new members and donations were halted until the legal papers were finished. Our main focus was to be known to other institutions so we could work together, and to give information so that we have a solid ground.

5. Future goals

- Organize a training and educational workshop with institutions.
- Coordination with municipalities in Peru with HC.
- Working in the response protocol for cultural heritage with other organizations
- Promoting the 1954 Hague Convention and both Protocols.
