Looting and Illicit Trafficking: Open Access Papers

We have chosen to only include open access articles and papers on general themes, rather than articles on focused topics, although there is a large body of research literature on this topic. These papers provide some of the most recent think tank work to complement our law library section on looting and illicit trafficking of antiquities.

Inclusion does not indicate endorsement by the Blue Shield of the views and opinions in them.

  (Although US focused, many of the recommendations have broader applicability)

A number of articles about looting are available on the [Trafficking Culture website](http://traffickingculture.org). Visit the Red List database on [ICOM's website](http://icom.museum). Visit [Illicit Trafficking of Cultural Property on UNESCO's website](http://unesco.org/).
